

Roadware 5150 50ml Application Tool Assembly and Usage Instructions

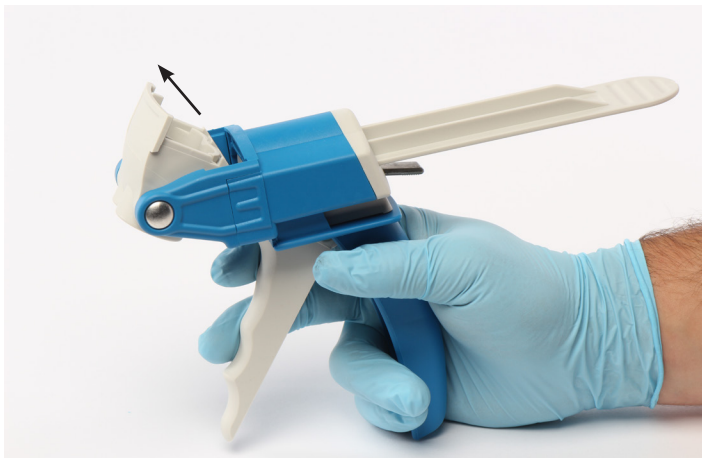

1) Each 5150 application tool comes with a blue cartridge applicator and a grey plunger assembly.

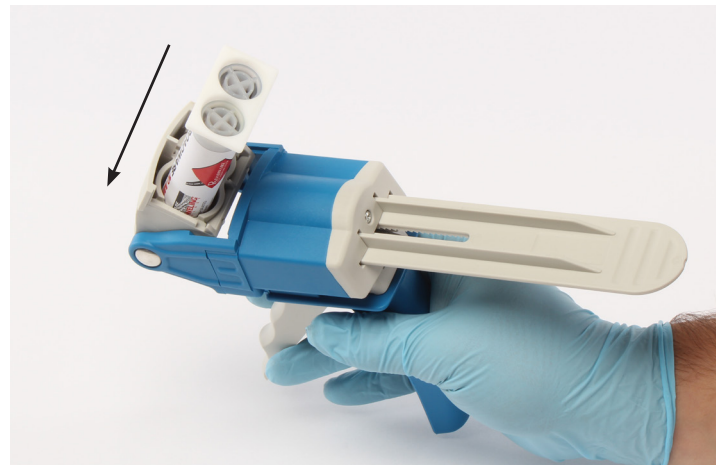

2) Application Tool Assembly. Press upward on the steel release lever on the back of the tool and insert the plunger **teeth side down** into the front of the tool.

3) While keeping the steel release lever pressed up, pull the plunger all the way back until it stops.

4) Loading. Rotate open the application tool cartridge breech.

5) Insert cartridge into the breech leaving cartridge plungers and cap intact.
